

What is new at the BB&T Soccer Park?

For the month of MAY

-Picnic Shelter- To the East of Fields 6 and 7 will be our first Picnic Shelter. The materials are at the park now and the picnic shelter will be constructed over the next 2 weeks. After it is complete, we will be adding Picnic Tables, Vending Machines, and hopefully a large outdoor fireplace.

-Free Wireless Internet Access- By early June, our parents, families, and coaches will be able to access the internet via a free, high-speed, wireless network that will be installed. So, Parents, while you are there for some of our various summer programs, you can surf the internet, do your email, etc.

-Running Paths- Two different running paths should be marked by the end of May. We are targeting a 1 mile and a 1.5 mile path within our Soccer Complex going around the fields and partially through the woods.

-Barrier Netting- We have been given some very nice barrier netting to put behind goals to keep balls from going in the woods, etc. We have also been donated some large wooden poles onto which to install the netting. However, we need to pick up the 40 foot poles in Lexington. We hope to do that shortly and get the poles brought to the park and then get the netting installed.
